MEASURE	CHAFFEY COMMUNITY COLLEGE DISTRICT \$700 MILLION BOND
P NO	This adds \$15 per \$100,000 of home value onto the \$9 per \$100,000 from Measure L, and stacks it onto all other property taxes.

Propositions

As of December 1, 2017, the State Treasurer's Office reports that California holds \$73.33 billion in debt from general obligation bonds. **If all bond issues, below, pass it will add another \$25.27 billion. This would make California in debt for a total of \$98.6 billion.**

However, California currently has \$31.09 billion in unissued bonds, including \$571.53 million for housing-related bonds. **Why take on another \$25.27 billion when we could sell the unissued bonds to pay for what these bonds would cost? We would still have \$6.4 billion bonds as a balance.**

1 NO	AUTHORIZES BONLDS TO FUND SPECIFIED HOUSING ASSISTANCE PROGRAMS. LEGISLATIVE STATUTE As written, this is very bad money management. This bond plus interest will cost \$5.130 billion , while only helping 8% of current homeless and veterans. That is \$410.5 million per person.
2 NO	AUTHORIZES BONDS TO FUND EXISTING HOUSING PROGRAM FOR INDIVIDUALS WITH MENTAL ILLNESS. LEGISLATIVE STATUTE Prop 2 allows the state to steal \$140 million annually from the funding of a statewide program targeting mental health needs at the county level , to fund their, not-local, state program, which duplicates the current program.
3 NO	AUTHORIZES BONDS TO FUND PROJECTS FOR WATER SUPPLY AND QUALITY, WATERSHED, FISH, WILDLIFE, WATER CONVEYANCE, AND GROUNDWATER SUSTAINABILITY AND STORAGE. LEGISLATIVE STATUTE We passed Prop 1 in 2014, with a balance owed of \$13.05 billion. Then, 5 months ago Prop 68 was passed, with a balance owed of \$8 billion. Now Prop 3 will cost us \$17.2 billion. So, if it passes, we will be \$39.7 billion in debt for water bonds, and the only thing done is a new law rationing citizens to 55 gallons per person, per day, starting 2019.
